Contents

PART 1—JANUARY 1965

PAGE

Glia-nerve fibre relationships in mammalian optic nerve. By M. J. Blunt, C. P. Wendell-Smith and F. Baldwin 1

Movements of the thoracic and lumbar spine when lifting: a chrono-cyclo-photographic study. By P. R. Davis, J. D. G. Troup and J. H. Burnard 13

Further observations on the cellular structure of cardiac muscle. By A. R. Muir 27

The ultrastructure of the placental labyrinth of the ferret (*Mustela putorius furo*). By A. M. Lawn and A. D. Chiquoine. 47

A comparison of adult and foetal talocalcaneal articulations. By P. S. C. Bunning and C. H. Barnett 71

A revision of the anatomy of the arteries supplying the upper end of the human femur. By H. V. Crock 77

The development of the rat carotid body. By D. C. Rogers 89

Histochemical demonstration of thiamine pyrophosphatase and acid phosphatase in the Golgi region of the cells of the eye. By T. R. Shantha-veerappa and G. H. Bourne 103

An osteometric study of the hind limb of the Galagidae. By E. C. B. Hall-Craggs 119

Ultrastructure of endothelium of the frog heart. By W. E. Stehbens and E. Meyer 127

Some observations on the upper end of the tibia in squatters. By B. R. Kate and S. L. Robert 137

The laminar structure of the medial geniculate body of the cat. By D. Kent Morest 143

The auditory apparatus of the Heteromyidae (Rodentia, Sciuromorpha). By Ade Pye 161

The development of pigmentation and enzyme activity in the nucleus substantiae nigrae of the cat. By C. D. Marsden 175

Book Reviews 181

Proceedings, June 1964 191

PART 2—APRIL 1965

PAGE

The uptake of vital dyes and particulate matter by the Sertoli cells of the rat testis. By E. J. Clegg and E. W. Macmillan 219

Electron microscopic observations on the structure of the rat adrenal medulla. I. The ultrastructure and organization of chromaffin cells in the normal adrenal medulla. By R. E. Coupland 231

Electron microscopic observations on the structure of the rat adrenal medulla. II. Normal innervation. By R. E. Coupland 255

Some anomalies of the foetal vessels of the human placenta. By Paul Wentworth 273

Fine structure of the ovine placentome. By Nils Björkman 283

The vesiculated axons in relation to arteriolar smooth muscle in the pancreas. A fine structural and quantitative study. By J. D. Lever, J. D. P. Graham, G. Irvine and Wendy J. Chick 299

Arachnoid granulations in sheep. By A. D. P. Jayatilaka. 315

The cortico-striatal projection in the cat. By K. E. Webster 329

Afferent connexions of the allocortex. By B. G. Cragg 339

Microtopography of the human skin. Studies with metal-shadowed replicas from plastic impressions. By I. Sarkany and G. A. Caron 359

Absorption into the rabbit articular cartilage. By C. H. Barnett and A. J. Palfrey 365

Electron microscopy of non-keratinocytes in the basal layer of white epidermis of the recessively spotted guinea-pig. By A. S. Breathnach and D. P. Goodwin 377

Development of the acid secretory potential in the chick embryo proventriculus. By Peter G. Toner 389

Book Reviews 399

Proceedings, November 1964 407

PART 3—JULY 1965

Acid mucopolysaccharides in electron microscopy. The use of the colloidal iron method. By R. C. Curran, A. E. Clark and D. Lovell. 427

The structure of the satellite cells in skeletal muscle. By A. R. Muir, A. H. M. Kanji and David Allbrook 435

Abdominal lymphoid tissue in the shrew. By R. L. Holmes 445

The ontogenesis of cholinesterase activity within the heart and cardiac ganglia in man, rat, rabbit and guinea-pig. By V. Navaratnam . . . 459

PAGE

The ultrastructure of the zona radiata of the ovarian follicle of the domestic fowl. By G. M. Wyburn, R. N. C. Aitken and H. S. Johnston . . 469

The blood supply to the avian oviduct, with special reference to the shell gland. By R. D. Hodges 485

3β-Hydroxysteroid dehydrogenase activity in the foetal mouse testis. By A. H. Baillie 507

Esterase and acid phosphatase activities in the rat placenta. By D. Bulmer 513

An X-ray microscopic study of the vasa vasorum of the human ductus arteriosus. By John A. Clarke. 527

Observations on the rate of maturation of the cat osteon. By J. D. Manson and N. E. Waters 539

Vascularization of the condylar cartilage of the human mandible. By H. J. J. Blackwood 551

Variations of the superior articular facets of atlas vertebrae. By Shamer Singh 565

An electron-microscope study of human foetal peripheral nerves. By H. J. Gamble and A. S. Breathnach 573

Organophosphate-resistant esterase, acid phosphatase and β-galactosidase activities in the inferior vagal (nodose) ganglion and dorsal vagal nucleus of the monkey following cervical vagotomy. By A. W. F. Fisher and S. D. Sutherland 585

Some electron microscopic observations on inter-receptor contacts in the human and macaque retinae. By Adolph I. Cohen 595

The lateral tegmental system of the midbrain and the medial geniculate body: study with Golgi and Nauta methods in cat. By D. Kent Morest . 611

An electron microscopic study of sheep arachnoid granulations. By A. D. P. Jayatilaka 635

The anatomy of the rings and muscles of the trachea of *Gallus domesticus*. By J. McLelland 651

Histology of the human nasopharyngeal mucosa. By M. Y. Ali . . . 657

Book Reviews 673

PART 4—OCTOBER 1965

Observations on the accumulation of noradrenaline in the proximal and distal parts of peripheral adrenergic nerves after compression. By Annica Dahlström 677

The migration of neuroblasts in the developing cerebral cortex. By M. Berry and A. W. Rogers 691

PAGE

A histochemical study of cholinergic fibres in the cerebral cortex. By K. Krnjević and Ann Silver 711

Correlation between nuclear morphology and somatotopic organization in ventro-basal complex of the raccoon's thalamus. By W. I. Welker and J. I. Johnson, Jr 761

The central olfactory connexions. By T. P. S. Powell, W. M. Cowan and G. Raisman 791

The innervation of the cerebral arteries in the rat: an electron microscope study. By D. D. Samarasinghe 815

Neuromuscular and intercellular relationships in the coronary arterioles. A morphological and quantitative study by light and electron microscopy. By J. D. Lever, Mumtazuddin Ahmed and G. Irvine 829

The lymphocyte in guinea-pig bone marrow. By J. M. Yoffey and D. G. Osmond 841

Observations on the carotid rete in the lesser bush baby (*Galago senegalensis senegalensis*). By R. Kanagasuntheram and A. Krishnamurti . . . 861

An X-ray microscopic study of the postnatal development of the vasa vasorum in the human aorta. By John A. Clarke 877

Changes in fine structure of the rabbit sperm head during passage through the epididymis. By J. M. Bedford 891

The effects of intratesticular injections of cadmium chloride in the rabbit. By E. Cameron 907
